Bio

I am a WordPress Developer who builds sites from the ground up (design, backend customizations and front-end development) or maintains pre-existing sites by troubleshooting problems with customized code fixes. I began as a front-end developer for any website but I quickly found that WordPress was my favorite type of site to work on so now I solely work with it.

Education

Boston University

Boston, MA

2008 – 2009

Drew University

* Contributor to WordPress

Work Experience

Bergen County Web Programmer (NJ Civil Servant)

April 2017 - Present

I was on the team that designed and created the official website, and now that it is complete I am part of the team that creates new pages, creates web apps, makes general updates to and maintains the website. I also wrote the code for the original intranet used for internal division communication and am now part of a team that is creating a newer and more feature-rich version.

Freelance Work

March 2014 – Present

Different freelance jobs required different kinds of work ranging from designing and developing custom WordPress websites to maintaining and troubleshooting sites with webstores.

Spotlight Clients:

- **Ora's Amazing Herbal** - I Troubleshot and maintained this beauty product site as well as added new features to WordPress and the WooCommerce webstore.
- **Frisa Beverages/Kristian Regale** - I designed and developed new pages for this beverage company's website, created some product ads in Photoshop and assisted with website security.
- **WP Monitor** - WordPress plugin I developed to report on the status of a WordPress installation as well as the technologies running it.
- **The DSM Group** - DSM is a marketing and advertising agency for whose clients I helped create new WordPress websites.
- **Arthur C Rothman Neurology** - This doctor's office needed me to design and develop a website to advertise their services as well as inform prospective patients about the policies and rules of the office.

Genewiz (contract)

Jan 2017 - Mar 2017

I assisted the company with creating their new official website.

OSG Billing (contract)

Oct 2016 - Nov 2016

Worked with the company's IT department on the migration of their existing website to a new one.

Oticon Corp (contract)

April 2016 - June 2016

Assisted the company's IT department with the migration of their existing website to a new one.

ACIEM Studios

May 2015 – Sept 2015

ACIEM provides video and photo production as well as branding assistance. I designed and developed as well as maintained a few sites for their clients.
