WORK EXPERIENCE

Unbridled Solutions - Web Application Developer

Feb 2022 - present

The work at Unbridled is proprietary so without specifics, worked on both developing and deploying WordPress sites and custom plugins used to create fun challenges, promote team building and create incentives for corporate event attendees. The plugins allow "players" to compete, more fully enjoy the event and build company morale whether they attend in-person or 100% virtually.

Bergen County Web Programmer (NJ Civil Servant)

April 2017 - Feb 2022

Was on the team that designed and created the official website, and then the team that created new pages, web apps, made general updates to and maintained that website. Also wrote the code for the intranet used for internal division communications.

Genewiz (contract)

Jan 2017 - March 2017

Assisted the company with creating their new official website to explain what they do and how to hire them for genetic research and testing.

OSG Billing (contract)

Sept 2016 - Nov 2016

Assisted the company's IT department with the migration of their existing website to a new one with additional features to show products, explain the features of each, download accompanying apps and much more.

ACIEM Studios

May 2015 - Dec 2015

Created and maintained the official company website as well as worked on designing and developing custom WordPress sites for campaigns created for clients of the studio.

Freelance Work

March 2014 - Jan 2020

Different freelance jobs required different kinds of work ranging from designing and developing custom WordPress websites to maintaining and troubleshooting sites with pre-existing web stores and ecommerce.
